

4.3.2 Compliance Date Report

Within ninety (90) days following the date for final compliance with applicable Pretreatment Standards or, in the case of a New Source, following commencement of the introduction of wastewater into the POTW, any User subject to Pretreatment Standards and Requirements shall submit to the Borough a report indicating the nature and concentration of all pollutants in the discharge from the regulated process which are limited by Pretreatment Standards or Requirements and the average and maximum daily flow for these process units in the User facility which are limited by such Pretreatment Standards or Requirements. The report shall state whether the applicable Pretreatment Standards or Requirements are being met on a consistent basis and, if not, what additional O&M and/or pretreatment is necessary to bring the User into compliance with the applicable Pretreatment Standards or Requirements. This report shall be signed and certified in accordance with Section 4.2.2(o) of this Ordinance.

4.3.3 Periodic Compliance Reports

- (a) Any User subject to a Pretreatment Standard after the compliance date of such Pretreatment Standard , or, in the case of a New Source after commencement of the discharge to the POTW, shall submit to the Borough during the months of June and December, unless required more frequently, in the Pretreatment Standard or by the Borough, a report indicating the nature and concentration of pollutants in the effluent which are limited by such Pretreatment Standards. Both daily maximum and average concentrations shall be reported.
- (b) Samples shall be representative of daily operations and shall be collected and analyzed in accordance with 40 CFR §136. In addition, this report shall include a record of the measured average daily and maximum daily flows.

(c) If sampling by the User indicates a violation, the User shall notify the Borough within 24 hours of becoming aware of the violation. The User shall also repeat the sampling and analysis and submit the results of the repeat analysis to the Borough within thirty (30) days after becoming aware of the violation, except if the Borough performs sampling at least once per month at the User's facility, or if the Borough performs sampling at the User's facility between the time when the User performs its initial sampling and the time the User receives the results of this sampling.

(d) If the User monitors any pollutant more frequently than required by the Borough using the procedures described in Section 4.3.3(b) of this Ordinance, the results of this monitoring shall be included in the report.

(e) At the discretion of the Borough and in consideration of such factors as local high and low flow rates, holidays, budget cycles, etc., the Borough may agree to alter the months during which the above reports are to be submitted.

(f) This report shall be signed and certified in accordance with Section 4.2.2(o) of this Ordinance.

(g) The Borough may impose mass limitations on Users which are using dilution to meet applicable Pretreatment Standards of Requirements, or in other cases where the imposition of mass limitations are appropriate. In such cases, the report required in previous paragraphs of this section shall indicate the mass of pollutants regulated by Pretreatment Standards in the effluent of the User. These reports shall contain the results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production and mass where requested by the Borough, of pollutants contained therein

which are limited by the applicable Pretreatment Standards. The frequency of monitoring shall be as prescribed in the applicable Pretreatment Standard or by the Borough.

- (h) All analyses shall be performed in accordance with procedures established by 40 CFR §136 and amendments thereto, or with any other test procedures approved by EPA. Sampling shall be performed in accordance with the techniques approved by EPA. Where 40 CFR §136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA publication, "Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants," April 1977, and amendments thereto, or with any other sampling and analytical procedures approved by EPA.

4.4 Report of Changed Conditions

Each User, whether permitted or not, must notify the Borough of any planned significant changes to the User's operations or system which might alter the nature, quality or volume of its wastewater at least thirty (30) days before the change occurs. The User may be required to submit information to the Borough as may be deemed necessary to evaluate the changed condition. The Borough may then issue a new Wastewater Discharge Permit or modify an existing Wastewater Discharge Permit as directed under Section 4.2 of this Ordinance, as applicable.

4.5 Notification of Hazardous Waste Discharge

- (a) Any User who commences the discharge of hazardous waste shall notify the POTW, the EPA Regional Waste Management Division Director and DER Waste Management authorities in writing of

any discharge into the POTW of a substance which, if otherwise disposed of, would be a hazardous waste under 40 CFR §261. Such notification shall include:

- (i) The name of the hazardous waste as set forth in 40 CFR §261;
- (ii) The EPA hazardous waste identification number; and
- (iii) The type of discharge (continuous, batch or other).

If the User discharges more than 100 kilograms of such waste per calendar month to the POTW, the notification shall also contain the following information to the extent that such information is known and readily available to the User;

- (iv) An identification of the hazardous constituents contained in the waste;
- (v) **An** estimation of the mass and concentration of such constituents in the wastestream discharged during that calendar month; and
- (vi) An estimation of the mass constituents in the wastestream expected to be discharged during the following twelve (12) months.

All notifications shall take place no later than 180 days after the discharge commences. Any notification under this paragraph need be submitted only once for each hazardous waste discharge. However, notifications of changed discharges shall be submitted per Section 4.2.4(i) of this Ordinance. This notification requirement does not apply to pollutants already reported by Users subject to Categorical Standards under the monitoring requirements of Section 4.3.

- (b) Discharges are exempt from Section 4.S(a) month in which they discharge no more during a calendar than fifteen (15) kilograms of hazardous waste, unless the wastes are acute hazardous wastes as specified in 40 CFR §§261.30(d) and

261.33(e). Discharge of more than fifteen (15) kilograms of nonacute hazardous wastes in a calendar month , or any quantity of acute hazardous wastes as specified in 40 CFR §§261.30(d) and 261.33(e), requires a one-time notification. Subsequent months during which the User discharges more than such quantities of hazardous waste do not require additional notification.

- (c) In the case of any new regulations under Section 3091 of RCRA identifying additional characteristics of hazardous waste, the User shall notify the Borough, the EPA Regional Waste Management Division Director and DER Waste Management authorities of the discharge of such substances within ninety (90) days of the effective date of such regulations.
- (d) In the case of any notification made under this section, the User shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical.
- (e) This provision does not create a right to discharge any substance not otherwise permitted to be discharged by this Ordinance, a Wastewater Discharge _ Permit issued hereunder, or any applicable Federal or State law.

4.6 Recordkeeping

Users subject to the reporting requirements of this Ordinance shall retain, and make available for inspection and copying, all records of information obtained pursuant to any monitoring activities requires by this Ordinance and any additional records of information obtained pursuant to monitoring activities undertaken by the User independent of such requirements. Records shall include the date, exact place, method, time of sampling and name of the person(s) taking the samples; the dates analyses are performed; who performed the analyses; the analytical techniques or methods used; and the results of the analyses.

These records shall remain available for three (3) years or longer as specified by the Borough, and affording the Borough access thereto, which period shall be automatically extended for the duration of the litigation concerning the User or the Borough.

4.7 Monitoring Facilities

The Borough shall require to be provided and operated at the User's own expense, monitoring facilities to allow inspection, sampling and flow measurement of building sewer and/or internal drainage systems. The monitoring facility should normally be situated on the User's premises, but the Borough may, when such a location would be impractical or cause undue hardship on the User, allow the facility to be constructed in the public street or sidewalk area and located so that it will not be obstructed by landscaping or parked vehicles. There shall be ample room in or near such sampling manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility and sampling and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the User. Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the Borough's requirements and all applicable local construction standards and specifications. Construction shall be completed within ninety (90) days following written notification by the Borough.

4.8 Inspection and Sampling

The Borough shall inspect the facilities of any User to ascertain whether the purpose of this Ordinance is being met and all requirements are being complied with. Persons or occupants of premises where wastewater is created or discharged shall allow the Borough or its representative ready access during all working hours to all parts of the premises for the purposes of inspection, sampling, and copying, and in the performance of any of records examination their duties. The

Borough, State and EPA shall have the right to set up on the User's property such devices as are necessary to conduct sampling inspection, compliance monitoring and/or metering operations . Where a User has security measures in force which would require proper identification and clearance before entry into their premises, the User shall make necessary arrangements with their security guards so that upon presentation of suitable identification, personnel from the Borough, State and EPA will be permitted to enter without delay, for the purposes of performing their specific responsibilities. If the Borough has been refused access to a building, structure or property *I* or any part thereof, and is able to demonstrate probable cause to believe that there may be a violation of this Ordinance at the facility , or there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this Ordinance or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, then the Borough may seek issuance of a search and/or seizure warrant from the Court of Common Pleas of Huntingdon County.

4.9 Pretreatment Facilities

Users shall provide necessary wastewater treatment as required to comply with this Ordinance and shall achieve compliance with all Federal Categorical Pretreatment Standards, local limits and the prohibitions set out in Section 2.1 of this Ordinance within the time limitations specified by EPA, the State or the Borough, whichever is more stringent. Any facilities required to pretreat wastewater to a level acceptable to the Borough shall be provided, operated and maintained at the User's expense. Detailed plans showing the pretreatment facilities and operating procedures shall be submitted to the Borough for review, and shall be acceptable to the Borough before construction of the facility. The review of such plans and operating procedures shall in no way relieve the User from the responsibility of modifying the facility as

necessary to produce an effluent acceptable to the Borough under the provisions of this Ordinance. Any subsequent changes in the pretreatment facilities or method of operation shall be reported to and be accepted by the Borough prior to the User's initiation of the changes. All records relating to compliance with Pretreatment Standards shall be made available to officials of the State or EPA upon request.

4.10 Public Notice

The Borough shall annually publish in *The Huntingdon Daily News* a list of the Users which were in Significant Noncompliance (SNC) with applicable Pretreatment Standards or Requirements at least once during the previous twelve (12) months. The notification also shall summarize any enforcement actions taken by the Borough against the Users during the same twelve (12) months. For the purposes of this provision , a User is in SNC if its violation meets one or more of the following criteria:

- (a) Chronic violations of wastewater discharge limits, defined here as those in which sixty-six (66%) percent or more of all of the measurements taken during a six-month period exceed (by any magnitude) the daily maximum limit or the average monthly limit for the same pollutant;
- (b) Technical Review Criteria (TRC) violations, defined here as those in which thirty-three percent (33%) or more of all of the measurements for each pollutant parameter taken during a six-month period equal or exceed the product of the daily maximum limit or the average monthly limit multiplied by the applicable TRC (TRC = 1.4 for BOD, Oil and Grease and TSS, and 1.2 for all other pollutants except ph);
- (c) Any other violation of a pretreatment effluent limit (daily maximum or longer-term average) that the Borough determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public);

- (d) Any discharge of a pollutant that has caused an imminent endangerment to the public or to the environment, or has resulted in the Borough's exercise of its emergency authority under 40 CFR §403.S(f)(1)(vi)(B) to halt or prevent such a discharge;
- (e) Failure to meet, within ninety (90) days after the scheduled date, a compliance milestone contained in the Wastewater Discharge Permit or separate enforcement order for starting construction, completing construction, or attaining final compliance;
- (f) Failure to provide, within thirty (30) days after the due date, any required reports such as baseline monitoring reports, periodic compliance reports, monthly monitoring reports, and reports on compliance with compliance schedules;
- (g) Failure to accurately report noncompliance; or
- (h) Any other violation or group of violations which the Borough determines will adversely affect the operation or implementation of the Borough's Pretreatment Program.

4.11 Confidential Information

Information and data on a User obtained from reports, questionnaires, permit applications, permits and monitoring programs, and from inspections shall be available to the public or other governmental agency without restriction unless the User specifically requests, and is able to demonstrate to the satisfaction of the Borough, that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the User.

When requested by the User furnishing a report that such information should be held confidential, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available immediately

upon written request to governmental agencies for uses related to this Ordinance , the National Pollution Discharge Elimination System (NPDES) Permit, State Disposal Permit and/or the Pretreatment Program. Such portions of a report shall be available for use by the State or any state agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information.

Information accepted by the Borough as confidential shall be transmitted to any governmental agency immediately when requested, but not to the general public unless a ten (10) day notification is given to the User by the Borough.

SECTION 5 - ENFORCEMENT

5.1 Administrative Enforcement Remedies

5.1.1 Notice of Violation (NOV)

Whenever the Borough finds that a User has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, the Borough may serve upon such person a written notice stating the nature of the violation. Within ten (10) days of the receipt date of this notice, an explanation of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted to the Borough by the User. If the User fails to submit a plan within this 10-day period, the Borough shall develop and enforce a plan to correct the violation in question at the User's expense. The provisions of this section shall not relieve the User of any responsibility under local, State or Federal statutes, laws, rules or regulations.

5.1.2 Cease and Desist Orders

When the Borough finds that a User has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, the Borough may issue an Order to Cease and Desist all such violations and direct the User in noncompliance to:

- (a) Immediately comply with all requirements; and
- (b) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatening violation, including halting operations and/or terminating the discharge.

Issuance of a Cease and Desist Order shall not bar against, or be a prerequisite for, taking any other enforcement action against the User.

5.1.3 Compliance Orders

When the Borough finds that a User has violated or continues to violate any provisions of this Ordinance , the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, the Borough may issue a Compliance Order to the User responsible for the discharge directing that, following a specific time period, sewer service shall be discontinued unless adequate treatment facilities, devices or other related appurtenances have been installed and properly operated. Compliance Orders may also contain other requirements as might be reasonably necessary and appropriate to address the noncompliance, including the installation of pretreatment technology, additional self-monitoring and management practices. A Compliance Order may not extend the deadline for compliance established for a Pretreatment Standard or Requirement, nor does a Compliance Order relieve the User of liability for any violation, including any continuing violation. Issuance of a Compliance Order shall not bar against, or be a prerequisite for, taking any other enforcement action against the User.

5.1.4 Consent Orders

The Borough is hereby empowered to enter into Consent Orders, assurances of voluntary compliance, or other similar documents establishing an agreement with the User responsible for the noncompliance. Such orders will include specific action to be taken by the User to correct the noncompliance within a time period also specified by the Order. Consent Orders shall have the same force and effect as Compliance Orders issued pursuant to Section 5.1.3.

5.1.5 Show Cause Orders

Notwithstanding the aforesaid enforcement provisions, the Borough may order any User who has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement to show cause before the Borough why the proposed enforcement action should not be taken. A notice shall be served on the User specifying the time and place of a hearing to be held by the Borough regarding the violation, the reasons why the action is to be taken, the proposed enforcement action, and directing the User to show cause before the Borough why the proposed enforcement action should not be taken. The notice of the hearing shall be served personally or by certified or registered mail (return receipt requested) at least ten (10) days before the hearing. Service may be made on any authorized representative of the User.

The Borough or other person designated by the Borough shall conduct the hearing and be authorized as follows:

- (a) To issue notices of hearings requesting the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in such hearings;
- (b) To take the evidence; and

- (c) To transmit a report of the evidence and hearing, including transcripts and other evidence, together with recommendations to the Borough for action thereof.

At any hearing held pursuant to this Ordinance, testimony shall be under oath and recorded stenographically. The transcript, so recorded, will be made available to any member of the public or any party to the hearing upon payment of the usual charges thereof.

After the Borough has reviewed the evidence, it may issue an Order to the User responsible for the discharge directing that, following a specified time period, the sewer service shall be discontinued unless adequate treatment facilities, devices or other related appurtenances have been installed and existing treatment facilities, devices or other related appurtenances are properly operated. Further orders and directives deemed necessary and appropriate may be issued by the Borough.

5.1.6 Administrative Fines

Notwithstanding any other section of this Ordinance, any User who has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, shall be fined an amount not to exceed Twenty-five Thousand Dollars (\$25,000.00) for each violation. Each day on which a violation shall occur or continue shall be deemed a separate and distinct offense. In addition to the penalties provided herein, the Borough may recover reasonable attorney's fees, court costs, court reporters' fees and other expenses of litigation by appropriate suit at law against the person found to have violated any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard of Requirement.

The User charged with the fine shall have thirty {30} days to pay the proposed fine in full, or if the User wishes to contest the amount of the fine or the fact of the violation, the User may file an appeal. Failure to appeal within this 30-day period shall result in a waiver of all legal rights to contest the violation or the amount of the fine. Unpaid charges, fines and penalties shall constitute a lien against an individual User's property.

5.1.7 Emergency Suspensions

- (a) The Borough may suspend wastewater treatment service and/or the Wastewater Discharge Permit when such suspension is necessary, in the opinion of the Borough, in order to stop an actual or threatened discharge which presents, or may present, an imminent or substantial endangerment to the health or welfare of persons or to the environment, causes interference to the POTW, or causes the POTW to violate any condition of its NPDES permit.
- (b) Any User notified of a suspension of wastewater treatment service and/or the Wastewater Discharge Permit shall immediately stop or eliminate the discharge to the POTW. In the event of a failure by the User to comply voluntarily with the suspension order, the Borough shall take steps as deemed necessary, including immediate severance of the sewer connection, to prevent or minimize damage to the POTW, its receiving stream, or endangerment to any individuals. The Borough shall reinstate the Wastewater Discharge Permit upon proof of the elimination of the noncomplying discharge by the User and payment of any damages, fines, penalties or costs associated with the discharge.

- (c) A User which is responsible, in whole or in part, for imminent endangerment shall submit a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence to the Borough within fifteen (15) days of the date of occurrence.

5.1.8 Revocation of Permit

Any User who has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, is subject to having his Wastewater Discharge Permit revoked for, but not limited to, the following changes:

- (a) Failure of the User to factually report the wastewater constituents and characteristics of discharge;
- (b) Failure of the User to report significant changes in operations or wastewater constituents and characteristics prior to the changed discharge;
- (c) Refusal to permit reasonable access to the User's premises for the purpose of inspection, monitoring or sampling;
- (d) Violation of the conditions of the Wastewater Discharge Permit; or
- (e) Failure to terminate undesirable new or increased discharges.

Noncompliant Users will be notified of the proposed termination of their Wastewater Discharge Permit and be offered an opportunity to show cause under Section 5.1.5 why the proposed action should not be taken.

5.2 Judicial Remedies

If any User has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, the Borough Solicitor may commence an action for appropriate legal and/or equitable relief in the Court of Common Pleas of Huntingdon County. Some of these actions include the following:

5.2.1 Injunctive Relief

Whenever a User has violated or continues to violate the provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, the Borough may petition the Court of Common Pleas of Huntingdon County through the Borough Solicitor for the issuance of a temporary or permanent injunction or both (as may be appropriate) which restrains or compels the activities on the part of the User.

5.2.2 Civil Penalties

Any User who has violated or continues to violate any provisions of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, or any violation of a Pretreatment Standard or Requirement, shall be liable to the Borough for a civil penalty in an amount not to exceed Twenty-five Thousand Dollars (\$25,000.00) plus actual damages incurred by the POTW per violation per day as the violation continues. In addition to the above described penalty and damages, the Borough may recover reasonable attorney's fees, court costs and other expenses associated with the enforcement activities, including sampling and monitoring expenses.

The Borough shall petition the Court to impose, assess and recover such sums. In determining the amount of liability, the Court shall take into

account all relevant circumstances including, but not limited to, the extent of harm caused by the violation, the magnitude and duration, any economic benefit gained through the User's violation, corrective actions by the User, the compliance history of the User and any other factor as justice requires.

5.2.3 Criminal Prosecution

Any User who willfully or negligently violates or continues to violate any provision of this Ordinance, the Wastewater Discharge Permit, any Order issued hereunder, to any violation of a Pretreatment Standard of Requirement may be subject to criminal liability under Federal, State or local law.

5.2.4 Falsifying Information

Any User who knowingly makes any false statements, representations or certifications in any application, record, report, plan or other document filed or required to be maintained pursuant to this Ordinance or Wastewater Discharge Permit, or who falsifies, tampers with or knowingly renders inaccurate any monitoring device or method required under this Ordinance may be subject to criminal liability under Federal, State or local law.

5.3 Affirmative Defenses

5.3.1 Treatment Upsets

For the purposes of this Section , "Upset" means an exceptional incident in which there is unintentional and temporary noncompliance with Categorical Standards because of factors beyond the reasonable control of the User. An Upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

An Upset shall constitute an affirmative defense to an action brought for noncompliance with Categorical Standards if the requirements in the following paragraph are met.

A User who wishes to establish the affirmative defense of Upset shall demonstrate, through properly signed, contemporaneous operating logs or other relevant evidence that:

- (c) An Upset occurred and the User identify the cause(s) of the Upset;
- (d) The facility was at the time being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;
- (e) The User has submitted the following information to the POTW within 24 hours of becoming aware of the Upset (if this information is provided orally , a written submission must be provided within five (5) days):
 - (i) A description of the Indirect Discharge and cause of noncompliance;
 - (ii) The period of noncompliance, including exact dates and time or, if not corrected, the anticipated time the noncompliance is expected to continue; and
 - (iii) Steps being taken and/orplanned to reduce, eliminate and prevent recurrence of the noncompliance.

In any enforcement proceeding, the User seeking to establish the occurrence of an Upset shall have the burden of proof. A User **will** have the opportunity for a judicial determination on any claim of Upset only in an enforcement action brought for noncompliance with Federal Categorical Pretreatment Standards.

The User shall control production of all discharges to the extent necessary to maintain compliance with Federal Categorical Pretreatment Standards upon reduction, loss or failure of its treatment facility

until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost or fails.

5.3.2 Treatment Bypasses

A bypass of the treatment system is prohibited unless all of the following conditions are met:

- (a) The bypass is unavoidable to prevent loss of life, personal injury or severe property damage;
- (b) There is no feasible alternative to the bypass, including the use of auxiliary treatment or retention of the wastewater; and
- (c) The User properly notifies the Borough as described in Section 5.3.1(c).

Users must provide immediate notice to the Borough upon discovery of an unanticipated bypass. If necessary, the Borough may require the User to submit a written report explaining the cause(s), nature and duration of the bypass, and the steps being taken to prevent its recurrence. A User may allow a bypass to occur which does not cause Pretreatment Standards or Requirements to be violated, but only if it is for essential maintenance to ensure efficient operation of the treatment system. Users anticipating a bypass must submit notice to the Borough at least ten (10) days in advance. The Borough may only approve the anticipated bypass if the circumstances satisfy those set forth in this section.

SECTION 6 - SEVERABILITY

If any provision, paragraph, word, section or article of this Ordinance is invalidated by any court of competent jurisdiction the remaining provisions, paragraphs, words, sections and chapters shall not be affected and shall continue in full force and effect.

SECTION 7 - CONFLICT

All other Ordinances and parts of other Ordinances inconsistent or conflicting with any part of this Ordinance are hereby repealed to the extent of such inconsistency or conflict.

SECTION 8 - EFFECTIVE DATE

This Ordinance shall become effective on the 31st day following enactment.

ADOPTED this ----- 16th - day of - January , 1996.

ALEXANDRIA BOROUGH
COUNCIL

By: Nathan Wagoner
President

ATTEST

Secretary

AND NOW, this 16th day of January, 1996, the foregoing __
Ordinance is hereby approved.
